Managed Discretionary Account (MDA) Services

An MDA allows Bespoke Portfolio to quickly and decisively manage your portfolio by removing the need for us to obtain your consent prior to any portfolio change. While our investment decisions must be consistent with the negotiated Investment Program contained in your MDA contract, an MDA maximises operational efficiencies and allows us to more quickly and consistently respond to market changes and emerging opportunities. By agreeing to this service you essentially choose to outsource all investment decisions to an experienced Portfolio Manager who manages your portfolio on your behalf.

Do you have to enter into a contract to receive MDA services?

In order to utilise an MDA service you must first enter into an MDA contract with us. The MDA contract regulates how we will exercise our discretion in providing the services necessary to manage your portfolio and outline any limits that may apply to that discretion.

The contract will set out the investment program for your portfolio. You may request that Bespoke Portfolio adhere to specific instructions with regards to certain assets of the portfolio but these specific instructions must be documented in the investment program.

Who prepares the Investment Program and who is responsible for reviewing the Investment Program?

In the circumstances that the adviser is authorised by Bespoke Portfolio to provide advice, your adviser will recommend an investment program based on their assessment of your personal objectives, financial situation and needs. You'll need to ensure that you understand their recommendation and their reasoning because they'll need your informed consent and approval to establish the MDA service.

To the extent that the information provided to Bespoke Portfolio and/or its authorised adviser is based on limited, incomplete or inaccurate information, you need to understand that the recommendation (or elements of the recommendation) may not be suitable for you, or may cease to be suitable if your personal circumstances change. In these circumstances, you should make your own assessment of the suitability of general MDA recommendation, the specific strategy outlined in the MDA contract and the level of assets as a percentage of your overall assets invested into the MDA Portfolio,

Your adviser will be responsible for the regular review of your investment program as set out in the MDA contract. Please note that the Australian Securities and Investment Commission requires that Bespoke Portfolio and/or its authorised adviser reviews the investment program and ensures that the strategy is still appropriate to your needs at least every 12 months; however a change in your circumstances may mean an earlier review is required.

MDA Reporting

To ensure that you maintain visibility over your portfolio Bespoke Portfolio will report to you about your MDA account on a regular and on-going basis. For reasons of efficiency and convenience, we'll provide these reports to you in an electronic format, assisting you to track the performance of your portfolio and eases the burden of end of financial year tax reporting.

Using a password-protected website, you are able to keep track of all transaction activity and individual stock positions at any time (subject to occasional site management).

You must have internet access to receive our comprehensive, timely and accurate portfolio reporting information and, if you are not comfortable with on-line reporting, this service might not be suitable for you.

The risk of investing in a MDA

The MDA contract allows Bespoke Portfolio, acting on your behalf, to make changes to your portfolio, such as buying or selling financial products, without consulting with you before making any changes.

Please understand that Bespoke Portfolio must act within the level of authorisation in your MDA contract. Please appreciate that by signing the MDA Contract you are authorising us to exercise our discretion in managing your account.

Generally, allowing Bespoke Portfolio to operate the MDA on your behalf involves inherent risks attributable to the investments themselves, including the specific risks of the underlying financial instruments such as derivatives, securities, debt instruments and cash. You should also appreciate that, to the extent permitted by law, Bespoke Portfolio takes no responsibility for any losses arising from properly acting or refraining to act in accordance with authorised dealings under the MDA contract. We do not, and can not, guarantee any particular outcome, return or profit from your investments. Nor can we guarantee that your capital will be maintained.

We will, however, explain the significant risks of the products and strategies that we recommend to you. The MDA contract will also address:

1. The nature and scope of the discretions we will be authorised and required to exercise under the MDA contract and any investment strategy that is to be applied in exercising those discretions;
2. Any significant risks associated with the MDA contract;
3. The basis on which Bespoke Portfolio considers the MDA contract to be suitable for you, and
4. The risk that that the MDA contract may not be suitable to you if you have provided limited or inaccurate information. It will also specify that the MDA contract may cease to be suitable if your relevant circumstances change.

Custody of your Assets

Investors with a Bespoke Portfolio MDA service retain the beneficial ownership of their assets. Bespoke Portfolio does not provide depositing or custodial services.

Bespoke Portfolio may, at its discretion, ensure the custody of your portfolio assets are kept by you as part of your CHESS Holdings with an execution and clearing firm. In the case of derivatives holdings, these will be held in a client-segregated account by the clearing and execution firm.

Fees and other Costs

The FSG part 1 shows the types of fees and other costs that you may be charged. These fees and costs may be deducted from your money or from the returns on your investment.

For more detail on fees specific to the service you are receiving please see the FSG part 2 provided by one of our Authorised Representatives.

You should read all the information about applicable fees and charges, as it is important to understand their impact on your investment.

Establishment fee

The establishment fee is a once off fee that is charged on the total value of the investment to cover the cost of setting up your MDA and recording your personal and capital gains tax details.

Administration Fee

The administration fee is paid to cover the costs of administering the MDA Service. The administration fee usually accrues from the day your account is activated.

Investment Fee

The investment fee represents the cost of investing in the MDA Service. The fee is charged on the value of your portfolio and is not linked to the performance of the portfolio. The investment fee accrues from the first day we begin managing instruments within a portfolio.

Performance fee

Some investment managers charge Performance fees that are based on the positive movement in the net asset value of the portfolio over and above a predetermined benchmark. Negative movements must be recouped before a fee is charged for positive movements over the predetermined benchmark.

Transaction Costs

Transaction costs cover the costs of buying and selling securities in a portfolio.

Brokerage forms part of the net price paid or received for the asset and is usually not recorded separately.

In accordance with Bespoke Portfolio Constitution and the Corporations Act, we may individually negotiate fees with investors classed as 'wholesale' or 'professional' investors on the basis of the value of their investments. We cannot enter into individual fee arrangements with other investors.
